

What Scientist Are You?

Select Yes or No based on your personality and interests. Once you complete the worksheet, the volunteers will reveal which statement matches a chemist or a biologist, helping you discover which path may be your natural fit!

Personal Profile	Yes	No
I am a naturally curious person.		
I enjoy cooking and trying new recipes.		
I prioritize healthy eating and exercise.		
I enjoy learning about how medicine works.		
I enjoy conducting experiments.		
I enjoy learning how the body works.		
I enjoy problem solving.		
I enjoy learning about different organisms		
I enjoy learning new things.		
I adapt when facing unexpected challenges.		

What Scientist Are You? (Volunteer)

Objective

This worksheet offers students a chance to explore potential careers they might find fulfilling, such as a chemist or a biologist, while also allowing them to delve into these professions with the assistance of volunteers.

Volunteer Instructions:

After students complete the worksheet, disclose the career associated with each statement. Then, engage in a discussion using the provided questions.

Personal Profile	Biologist	Chemist	Both
I am a naturally curious person.			✓
I enjoy cooking and trying new recipes.		✓	
I prioritize healthy eating and exercise.	✓		
I enjoy learning about how medicine works.		✓	
I enjoy conducting experiments.			✓
I enjoy learning how the body works.	✓		
I enjoy problem solving.		✓	
I enjoy learning about different organisms	✓		
I enjoy learning new things.			✓
I adapt when facing unexpected challenges.			✓

Chemist:

- How can curiosity help chemist?
- What are some experiments you've conducted recently?
- How can chemists help create tech products?
- What is an example of a time you faced an unexpected challenge in your field?

Biologist:

- How can curiosity help biologist?
- What are some experiments you've conducted recently?
- How can biologist help protect the environment?
- What is an example of a time you faced an unexpected challenge in your field?
