

EVERFI FAMILY PORTAL

Frequently Asked Questions

Who can use these digital lessons?

The Family Portal includes all EVERFI courses available for K-12 students. Though EVERFI's resources are typically leveraged in a classroom setting, EVERFI and our partners are committed to ensuring that K-12 students also have access to these resources at home for a limited time during this period of widespread school closures.

Can I share this resource with friends and family outside my organization?

Yes. As an EVERFI customer, you are welcome to share this resource with employees and the general public. Social media templates are included below.

Will students in my sponsored schools still see my company logo?

Yes. Parents are instructed to select their child's school when they register, which allows us to provide a branded course experience for the students in any geography you sponsor. We hope the Family Portal serves as an additional opportunity for you to connect with a parent audience and showcase your commitment to local schools. Thank you for helping us make this possible.

Will students see multiple sponsors on their course dashboard?

Yes. Students will see a different sponsor for each course that is available to them. For example, a bank sponsor on their Financial Education course, and a pharmacy sponsor on their Mental Wellness course, and a sports league sponsor on their STEM course.

Does the Family Portal impact my organization's student data?

Yes. All student enrollments that occur at a school in your sponsored footprint for the 2020-2021 academic year will be included in your student impact data, including your annual Impact Report.

Does the Family Portal replace traditional school activation via teachers?

No. EVERFI's K-12 Implementation team is still actively working with schools to implement our courses through teachers. The Family Portal is meant to serve as an additional way to access EVERFI's courses during this unprecedented time of widespread school closures.

Your library of 20+ courses is a lot. Where should I start?

We encourage you to promote the course you sponsor, but you can also mention the full library of resources covering Financial Education, Social Emotional Learning, Health and Wellness, STEM and Career Exploration. We believe all of EVERFI's courses are extra valuable at the moment. Core academic topics like math and reading are also reinforced in the courses. For example, our Financial Education courses reinforce math topics while teaching valuable lessons about money, and also sharing practical resources, like how to pay for college. We have a program to help students learn to read. Hockey Scholar Math also teaches math concepts through the game of Hockey. See complete list of courses below.

[Watch this brief parent webinar](#) for an overview of the 20+ digital courses available to families, along with instructions on how to register, and best practices for engaging your students in online learning.

EVERFI Course Library

Pathways Financing Higher Education 9th-12th Grade					

I can't find my specific school. Who can help me get started?

Please visit support.everfi.com or email remotelearning@everfi.com to submit a help request. The EVERFI team will respond to these requests as quickly as possible.

My child's school uses Clever for student login, can I use Clever to register them?

Yes. EVERFI's Registration portal has a "Login With Clever" button. Clever users should click that button, log in via Clever, and view the Student Dashboard. If part of a remote school, Clever users will see the "Add Remote Courses" banner at the top of their student dashboard.

How long will the Family Portal be available?

The Family Portal will remain open through the 2020-2021 school year for customers to promote to employees and customers. As states and school districts move back and forth between in-person and remote learning in response to changing health risks in their communities, our goal is to remain a source of steady support to families amidst this uncertainty. In summer 2021, we will reassess an extension of Family Portal availability based on feedback from teachers, districts, and parents on what their communities need the most.
