Hi **[Teacher Name]**,

We are thrilled to inform you that your student, **[Student Name]** has been selected to receive the \$5,000 *Accounting Careers: Limitless Opportunities* scholarship prize! We were really impressed by your student's application and are excited to present [Student Name] with the award. We're asking that all winners and their parent/guardian fill out the attached release forms. Please share the forms with your student and request that the forms be completed and returned back to you. We will need the signed version scanned and returned to us as soon as possible.

Additionally, we would love to come present the scholarship award to **[Student Name]** **in-person or virtually!** Can you please let us know of a few dates/times prior to your final day of classes that would work for a representative from Accounting+ to deliver the scholarship? Alternatively, please feel free to [complete this quick form](#) if that's easier for you.

Thank you for making this opportunity possible and for making accounting education a priority in your classroom. We are thrilled to be able to present the scholarship award to your student soon!
